

Rolled Bandages

Materials: old used sheets, colored sheets are ok. The most useful size of bandage is 3 inches wide. Roll as tight as possible and tack with thread to secure the end. These may be placed in the autoclave at the hospital for sterilizing when prepared this way. If you need instructions on how to make a bandage roller please contact us.

Medicine

Tylenol and ibuprofen. Easy to find in any store in the USA but rarely available in Papua New Guinea. Buy a bottle and ship to us or donate financially for us to buy at cheap bulk rates.

Electrical Regulator

Required to run US donated electric equipment. The regulator prolongs the life of expensive medical equipment due to electric surges that are common in the country. *Costs: \$50.00. Need: 10*

Cleaning supplies

Help reduce infections in the hospital. Needs:
Garbage cans: 10 @ \$75 per can
Exam Gloves: 3000 per year: large size
Hydrogen peroxide: as much as possible
Liquid soap: as much as possible

Maintenance Supplies

Skill saw blades 7 ¼, 10 inch blades
Planer blades 12"
Drill bits multiple sizes
Short concrete bits-1/4, 5/16, 3/8
Nails-1", 1 ¼", 1 ½", 2" 16 and 18 gage brad nails

Assist with obtaining bulk loads of medicine and supplies

We are able to obtain medicine, supplies and equipment through Heart to Heart International. Help support the \$500 shipping fee for which we obtain on average \$275,000 worth of medicine and supplies.

Shipping Help

The cost of shipping a 20 foot container from Medford, Oregon to Kudjip, Papua New Guinea is \$6,000.00. If you would like to assist in covering these costs please send your check to:

Nazarene Hospital Foundation
555 Black Oak Dr Suite 100
Medford, OR 9750
